HAVE YOU EVER EXPERIENCED

- **Concern for your home, your love ones, your business over the security and safety?**
- **The trauma of a home or business invasion?**
- **recovery from lost or damage over the intrusion or attack that could be preventable?**

A compromised sense of safety actually can't be measured in dollars and cents. The world-standard security pros are trained to assess your locations (home, building, etc.) and design the perfect security and broad monitoring solutions. Our attention to detail will help truly restore confidence in your site's safety.

Take control of your home's and business' security so that you are preventing a break-in instead of recovering from one. From video surveillance to central monitor, door sensors to carbon monoxide detectors, and to emergency respond team in quick action... you'll be safe and sound with Libra CMS 911 security system.

Because

Feeling confident that you are protected is something everyone deserves.

WHAT IS LIBRA CMS 911?

Are you looking for a secure location where alarm signals are monitored by live central station operators 24/7?

Libra CMS 911, an integrated security solution with the most comprehensive array of video monitoring, intrusion detection system (IDS), and integrated manned security solutions tailored to achieve optimal high security system and performance 24/7.

LIBRA CMS 911 that allow operators to view, manage and catalog incoming alarm signals from a massive number of alarm panels and take action immediately to resolve security issue happens.

VIDEO MANAGEMENT SYSTEM (VMS)

At Libra, we always stay current with the latest technologies and techniques to keep our clients secure, and VMS Platform is no exception. We offer a broad range of video surveillance solutions that can be tailored to your needs, allowing you to maintain a secure watch on all your facilities, 24/7. A long with high-tech AI Facial Recognition to analyze algorithm supporting multiple security services.

We can provide everything from stand-alone cameras for a branch office to full CCTV coverage for large building complexes and multiple properties.

SOME OF THE AVAILABLE FEATURES INCLUDE:

- Dome, bullet or PTZ cameras
- Day/night video technology
- Infrared illumination
- Wide range of digital video recorders
- Panel monitor connect from camera surveillance
- Mobile connectivity for remote detection
- AI on Facial Recognition based on deep learning technology

CENTRAL MONITORING SYSTEM (CMS)

Services are used by many security system owners who require high security monitoring. It is suitable for both residential and industrial sites.

Libra CMS 911 consists of two main components: Signal Receivers to convert all alarm signals into raw protocol codes and Central Station Software that allow operators to view, manage and catalog incoming alarm signals from a massive number of alarm panels 24/7.

COMPONENTS IN A REDUNDANT SYSTEM OF CMS:

Measurement

- Real-time monitoring
- Values displayed locally on the data logger, on the monitoring phone (Apps)
- Precise and reliable measurement
- Monitoring parameters: temperature, relative humidity, pressure, e.g: CO2 from fire

Data Storage

- Automated data download and archive
- Data storage in multiple locations including data logger memory and in a historical archive
- In the event of a power outage or network failure, monitoring and local alarm continue and data is stored on the data logger

Reporting

- Automatically send reports to user-defined e-mail addresses
- Sensor-specific reports

Alarms

- Automated alarm notification via Apps , SMS and / or phone call
- Hardware: audible / visual alarm built in to each data logger
- Software: audible / visual alarm at monitoring PC
- Client can connect to an in-house alarm system to arm/disarm

EMERGENCY RESPONSE TEAM (ERT)

Even with the best video surveillance, and the strong monitoring operators – Armed or Un-armed attacks are still a major challenge to your home businesses and can create unwanted emergency situations.

In recognition of this challenge, Libra CMS 911 is introducing a compliment solutions, Emergency Respond Team (ERT) compliant with the CCTV, CMS, and security guard(s).

The ERT service is designed to provide 24/7 patrolling services in responding to emergency situations.

The ERT will provide instantaneous, security experts to neutralize and defeat the security issue before irreparable damages occur.

Our ERT Officers

- Well-trained by MOI on how to defeat issue, for fighting, criminal case , etc.
- First-aid by international NGO - ST Jonson from Singapore.
- Work correlatively with MOI
- Patrol on assigned zones to efficiently respond and take action promptly

WHY LIBRA?

1 PROTECTION BENEFITS – WE DELIVER PEACE OF MIND

- Our security personnel are pre-employment screened to eliminate people with police criminal conviction records, and they are fully trained in security and customer service skills. They are taught to be polite but firm when situation requires.
- We provide day and night inspections of properties under our protections.

2 FINANCIAL BENEFITS

- Fixed expense on security fee.
- Save on head counts, payroll, security training, uniforms and other costs associated with hiring your own guards.
- Save on costs for employee benefits.

3 ADMINISTRATIVE BENEFITS

- Security personnels management - hiring, training and terminating.
- Replace inefficient staff immediately without additional costs
- Increase or decrease security staff by a simple telephone call.

WHY LIBRA CMS 911?

“
When life safety is on the line ...
your operators don't have time to deal with complicated software. So LIBRA CMS 911 might be the most protective and affordable choice for security
”

◆ SIMPLE AND COMPLIANT SYSTEM DESIGN:

Collects and stores data reliably and safely, making it available on your existing systematic network. The system is comprised of multifunctional components – sensors, data loggers and monitoring software. And the corresponding monitoring software saves and documents the data, which can then be accessed from all PCs in the network.

◆ REAL-TIME DATA REPORTING MONITORING:

Monitor all measured reports in the data logger network in real time.

◆ QUICK RESPOND 24/7 IN REAL ACTION TAKEN:

Not only control and monitoring through surveillance and monitor panel, but also taking an immediate action in defeat to the alarm (either real or fault alarm) and attacks by ERT.

◆ COST SAVING AND TIME EFFECTIVE:

The system monitors data securely while improving processes to save time and money with professional maintenance and calibration services, customized to client's requirements.

CASE STUDY

TK AVENUE MALL

TK Avenue is a new open-air mall sporting boutique luxury shops and restaurants with an all-in-one experience in Phnom Penh's Tuol Kok district is the latest expansion of the suburban neighborhood.

SOLUTION

TK Avenue is an expansive mall and presents unique challenges for security personnel and operators. Strategically placed mall security cameras with modern control room help to enhance security, to monitor shoppers, and to reduce theft by providing continuous monitoring of all parts of a shopping complex. LIBRA CMS 911 operators work simultaneously with TK operators to monitor the activities in real-time event and manage our comprehensive systems to assure the safety and order are met satisfaction and standard.

CHALLENGE

Since TK Avenue is an open-air mall and susceptible to criminal activity due to the luxurious revenue and people, TK Avenue is facing a uniquely challenge to keep the site a zero-crime zone for every customers. Crimes at TK Avenue has occurred from many shape and size – from shoplifting, to pickpocketing, property stolen, and more. Not only just crime is an issue, but also the systems, including fire safety, parking system, and camera surveillance. Because of this TK Avenue operators has hard times to control and monitor all at once.

BENEFITS:

The benefits of a well-placed mall security camera with a complimentary of professional security guards include:

- Increase Customer Safety – The presence of Mall security cameras raises the mall's overall level of security and gives customers the confidence to come to TK Avenue without fear of unwelcomed activities.
- Deter and Prevent Crime/Theft – Mall security cameras monitor the premises for suspect behavior and security guard keeping the premises in order and safe from any attacks.

We recommend using LIBRA CMS 911. They provide a friendly and knowledgeable service and are always willing to adapt to the needs of their customers.

Mr. Reath Sunra
General Manager
TK AVENUE MALL
